PUBLIC COMMENT ON AGENDA ITEMS & INTRODUCTIONS OF GUESTS:

Guests were welcomed and invited to comment on any agenda items.

EXECUTIVE DIRECTOR'S REPORT:

Ms. Fraser stated that staff as returned to the office full time. Meetings in the office are held on a case by case basis. Fully vaccinated guests are welcome in the office without a mask. The current emergency declaration for public Boards meeting via zoom expires on June 30th. We will learn at the end of the month if the allowance is extended after the new fiscal year.

Ms. Fraser announced that Extended Housing will be holding a face to face fundraiser; 'Picnic at the Ballpark' on Saturday, August 14th starting at 5:00 p.m. This will be a great opportunity to celebrate with consumers in recovery. The Board will have a table set up at the event. If Board members are interested in attending and bringing a guest, please contact Ms. Tuttle by July 8th.

Ms. Fraser reported that typically this time of year that we reflect back on the progress of the past year and look to the future via our annual dinner. Last week marked the end of a 15 month state of emergency in Ohio – and over the past 15 months you've heard a lot about our provider network, and our board staff, working hard to address the immediate crisis of the day, a lot about shifting to telehealth, distributing PPE, getting vaccines to those in need, working to keep dollars flowing, and on and on. Our system responded remarkably and met the needs of our community. But what we haven't really talked about is how every single agency director and every single provider organization was able to accomplish some amazing things over the past year, while still weathering the storm of this pandemic. So I want to take a couple minutes and just highlight some of these "above and beyond" accomplishments:

- Damir Pavicic and the team from Bridges – when the drop in center was forced to close their doors the team began sending support and motivation to their members – gifts cards, games, coloring pages, words of encouragement – and those have continued throughout the past 15 months. I've received calls and letters from consumers sharing just how much that contact has meant to them. We're excited that Bridges will be reopening their doors, on a limited basis, starting July 21st.
- Emily Currie-Manring and the team from Catholic Charities – continued to provide vital outreach, education and advocacy to minority groups throughout our community, ensuring they stayed connected to accurate information and support.
- Sondra Miller and the CRCC team – were dealt a huge blow in cuts to federal funding, but made sure that the vital care to Lake County survivors was not diminished, and in fact are helping more Lake Countians today than ever.

- Mike Matoney and Crossroads Health team – embarked on the enormous labor of becoming Lake County’s first CCBHC (Certified Community Behavioral Health Clinic) – this will not only bring significant funding into Lake County, but it will expand the organization’s ability to serve our county’s most at risk in a truly holistic manner.
- Karen McLeod and Extended Housing team – found ways to ensure that the county’s homeless and at risk individuals still had access to behavioral health care via virtual platforms.
- Melanie Blasko and the team from Lake-Geauga team – kept services open and available in residential treatment and recovery homes when congregate settings were most at risk across the county, state and country.
- Lisa Falkenberg and Jackie Smith and the Lake Health crisis team – provided continuous support not only to the behavioral health clients in the emergency departments, but to their fellow staff within the hospital as fatigue and burnout overwhelmed.
- Carrie Dotson and Lifeline team – Carrie and her team became perhaps the most important organization in the county, connecting individuals with critical food, housing, and vital information, all while maintaining existing programming and keeping 211 completely up to date.
- Katie Jenkins and NAMI team – shifted quickly to virtual platforms to ensure that families continued to receive information and support throughout the crisis.
- Lauren Williams and the Northcoast Behavioral Health team – kept residential treatment open, and worked tirelessly to help residents connect with services and supports, including vaccines.
- Jonathan Lee and Signature Health team – became a vital resource for the county in COVID testing and vaccines, while maintaining full services, and constructing a new residential treatment facility and breaking ground on a new Federally Qualified Healthcare Center in Painesville, which will benefit the community for decades to come.
- Tim Kehres and Torchlight team – found ways to continue to support youth and mentors, got creative with virtual fundraising, and never let the community lose sight of the importance of mentoring and being there for one another.
- Andrea Gutka and WomenSafe team – kept shelter doors open, and continued to serve those most desperately in need of support.
- As for the ADAMHS Board internally, we thrived because each and every staff member – Kelly, Carla, Eryn, Amy, Sandra, Danette – and the incredible management team of Jackie, Christine and Greg, stepped up and made sure every single task was accomplished. The team went beyond their day to day jobs to address the pandemic crisis – hunting down PPE and cleaning supplies, keeping communication open with providers, identifying problems and working quickly to address them. As for “beyond COVID”, I am very proud of the strides we’ve made in 5 key areas , including Health Equity (we’ll be rolling out the first draft of our Diversity, Equity and Inclusion Plan), Technology (we’ll be updating the group on our work with Adatasol and GOSH), Marketing and Outreach (our first newsletter will be coming out in July and we’re doing extensive new work with community partners),

Suicide Prevention and Overdose Prevention – we plan to schedule our next Long Range Planning Committee meeting in August where we'll be able to bring the committee and board up to date on just how much we've been doing on these fronts.

In all, this past year has demonstrated marked growth in our behavioral health system, sometime in spite of and sometimes because of, the adversity we faced with the pandemic.

Mr. Enzerra noted that during this challenging year great work was done by the entire team, agency staff, Board and the community working together to pull through and out of adversity making us more resilient and stronger for the future.
